# ROBERT MAGNO

Software Developer

Marinduque 4905, Philippines, +639266495922, magno.robert.m@gmail.com

## PROFESSIONAL SUMMARY

BS Information Technology graduate specializing in web and software development. Skilled in developing responsive, user-focused applications using modern frontend, backend, and database technologies. Experienced in building practical web-based projects with a focus on clean, maintainable, and efficient solutions.

## WORK EXPERIENCE

System Developer Intern — Jan 2026 - Apr 2026

Department of Environment and Natural Resources (DENR) – Provincial Environment and Natural Resources Office (PENRO), Marinduque
Internship | 486 Hours

- Developed the PENRO Marinduque Billing System (PMBCS), taking responsibility for building web-based features for billing record management and processing, streamlining the organization and handling of billing information.
- Implemented RESTful APIs and responsive user interfaces using Laravel, HTML, CSS, JavaScript, and Bootstrap, ensuring functional and accessible features across different screen sizes.
- Designed, developed, and deployed the billing system for the Accounting Management Section and Cashiering Section, supporting their day-to-day billing and payment-related processes through a centralized web-based system.
